PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals and mental institutions operating in Canada is prepared by the Institutional Statistics Section of the Health Division of Statistics Canada.

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The reader's attention is drawn to the fact that, beginning with the reporting year 1973, Volumes I, II and III have been condensed and combined into one volume: *Hospital Statistics, Volume I – Beds, Services and Personnel*, Catalogue 83-227. In a similar manner, Volumes IV, V and VI have become: *Hospital Statistics, Volume II – Expenditures, Revenues and Balance Sheet*, Catalogue 83-228 and Volume VII has become: *Hospital Statistics, Volume III – Indicators*, Catalogue 83-229.

PETER G. KIRKHAM,
Chief Statistician of Canada.

PRÉFACE

La Section de la Statistique des établissements de la Division de la santé de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux du Canada.

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Nous attirons l'attention du lecteur sur le fait qu'à partir de 1973, les volumes I, II et III ont été condensés et fusionnés en un volume: *La statistique hospitalière, volume I – Lits d'hôpitaux, services et personnel*, n° 83-227 au catalogue. De même les volumes IV, V et VI deviennent: *La statistique hospitalière, volume II, – Dépenses, revenus, bilans hospitaliers*, n° 83-228 au catalogue. Le volume VII devient: *La statistique hospitalière, volume III – Indicateurs*, n° 83-229 au catalogue.

Le statisticien en chef du Canada,
PETER G. KIRKHAM.

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared by the Institutional Statistics Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this list. The list includes hospitals in operation as of April 1, 1978.

Hospitals and related facilities are listed alphabetically according to location.

This definition includes mental institutions.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section de la Statistique des établissements de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux en activité au 1^{er} avril 1978.

Les hôpitaux et les établissements connexes sont inscrits par ordre alphabétique selon l'emplacement.

Établissements dispensant aux assurés des soins à l'extérieur de l'hôpital — Un répertoire des établissements qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la Loi sur l'assurance-hospitalisation et les services diagnostiques.

Hôpital — Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

Emplacement — Adresse postale — Le nom de la rue est indiqué lorsqu'il s'agit d'une grande ville. Dans le cas de municipalité distinctes formant une grande zone métropolitaine, l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement du Canada de 1971. L'abréviation M.A. est utilisée pour "zone métropolitaine".

Nom — Nom officiel de l'établissement — L'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales dont dispose l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU — Quartier de psychiatrie
TBU — Quartier pour les soins aux tuberculeux
NS — École reconnue d'enseignement infirmier
EDU — Quartier pour le traitement des enfants affectivement perturbés.

Category

Public (including voluntary, provincial and municipal) – Applies to a hospital recognized by the province as a “public hospital”. Such a hospital generally is not operated for profit.

Proprietary – Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the province as a “proprietary hospital”.

Federal – Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

Type of Service

Classification is according to the predominant type of treatment and care provided by the institution.

A hospital classified as “General” provides **primarily** for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries and is not restricted to a specific age-group or sex.

Allied special hospitals include “Pediatric”, “Rehabilitation” (including convalescent), “Extended care” (including chronic) and “Miscellaneous” (e.g., cancer, cardiology, neurology, outpost hospitals and nursing stations).

In the province of Quebec, some institutions are designated as *Centres d'accueil* (reception centres).

There are four classes of *Centres d'accueil*:

- (a) day-care centres that shall admit persons and provide them during part of the day with care and activities designed to promote their physical, intellectual and social development;
- (b) transition centres that shall admit persons deprived of their usual family surroundings who are obliged to seek temporary protective help;
- (c) rehabilitation centres that shall admit persons suffering from a major physical, intellectual, psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time; and
- (d) home care centres that shall admit persons who, because of a lessening in their physical or mental capacity, are obliged to sojourn in protective residence.

Catégorie

Public (s'applique aux hôpitaux privés sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux) – Hôpital reconnu par la province comme “public”. Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Privé à but lucratif – S'applique aux hôpitaux reconnus par la province comme “privés à but lucratif”; il s'agit d'un hôpital qu'un particulier ou un organisme privé possède et exploite en vue de réaliser des bénéfices.

Hôpital fédéral – Hôpital appartenant à un ministère ou à un organisme du gouvernement du Canada et ne visant pas à réaliser des bénéfices.

Genre de service

Les hôpitaux sont classés suivant le genre principal de traitement et de soins dispensés par l'établissement.

Un hôpital “général” offre **principalement** des soins de courte durée (diagnostic et traitement) pour une grande variété d'affections et de blessures ou traumatismes, sans distinction d'âge et de sexe.

Les hôpitaux spécialisés comprennent les hôpitaux “pédiatriques”, “de réadaptation” (comprend la convalescence), “de soins prolongés” (comprend les malades chroniques) et divers (par ex., les hôpitaux anticancéreux, de cardiologie, neurologiques, les hôpitaux éloignés et les postes infirmiers).

Dans la province de Québec certains établissements sont reconnus comme centres d'accueil.

Il y a quatre classes de centres d'accueil:

- a) les centres de garderie, qui reçoivent des personnes à qui ils offrent pendant une partie de la journée, des soins et un programme d'activités visant à promouvoir leur développement physique, intellectuel et social;
- b) les centres de transition, qui reçoivent des personnes qui, privées de leur milieu familial habituel, doivent recourir provisoirement à une ressource, de protection;
- c) les centres de réadaptation, qui reçoivent des personnes qui, à cause d'inadaptation majeure sur le plan physique, intellectuel, psychologique ou social, doivent bénéficier de services intensifs de réadaptation ou d'orientation pour une période définie; et
- d) les centres d'hébergement, qui reçoivent des personnes qui, en raison d'une diminution de leur autonomie physique ou psychique, doivent séjourner en résidence protégée.

This list shows those *Centres d'accueil* which are part of another institution.

Introduction

This publication of a consolidated listing of hospitals and special care facilities provides a total picture of residential care facilities in Canada. Hospitals and related facilities are listed alphabetically according to location in Part I; Special Care Facilities are listed in the same format in Part II. The list includes hospitals and special care facilities in operation as of April 1, 1979.

This publication was prepared by the Institutional Statistics Section of the Health Division of Statistics Canada after the revision and updating of the previous year's inventory. Statistics Canada is grateful for the co-operation received from the provincial authorities for their assistance in the annual scrutiny of these lists. Statistics Canada also wishes to express its indebtedness to National Health and Welfare Canada for updating the inventory on Special Care Facilities under the Canada Assistance Plan program.

Data appearing in this publication comprise only part of the information available on hospitals and special care facilities. A series of one quarterly, two annual and a number of occasional, non-catalogue reports are published by the Section. Unpublished data are available in either summary or indicator form by province, type and size of facility. Release of unpublished data is subject to the confidentiality provisions of the Statistics Act.

Statistique Canada tient à exprimer sa gratitude aux autorités provinciales pour la collaboration dont elles ont fait preuve en participant à l'examen annuel de ces listes. Statistique Canada désire également exprimer sa reconnaissance au ministère de la Santé et du Bien-être social qui a mis à jour la liste des établissements de soins spéciaux dans le cadre du Régime d'assistance publique du Canada.

Les données figurant dans la présente publication ne portent que sur une partie des renseignements disponibles sur les hôpitaux et les établissements de soins spéciaux. La Section publie un bulletin trimestriel, deux bulletins annuels et un certain nombre de bulletins hors série ne figurant pas au catalogue. EXPLANATORY NOTES AND GLOSSARY

This publication was prepared by the Institutional Statistics Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this list. The list includes hospitals in operation as of April 1, 1979.

Hospitals and related facilities are listed alphabetically according to location.

Facilities for the provision of out of hospital insured services. A list of the "facilities for the provision of out of hospital insured services" as approved by the Hospital Insurance and Diagnostic Services Act.

A hospital. Is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions.

Location. Postal address — Street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1971 Census of Canada. The abbreviation M.A. is for "Metropolitan Area".

Name. Official name of institution — Definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parenthesis thus:

PsU — Psychiatric unit
TBU — Tuberculosis unit
NS — Approved school of nursing
EDU — Emotionally disturbed children's unit.

Category

Public (including voluntary, provincial and municipal). Applies to a hospital recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

NOTES EXPLICATIVES ET GLOSSAIRE

La présente publication a été rédigée par la Section de la Statistique des établissements de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux en activité au 1^{er} avril 1979.

Les hôpitaux et les établissements connexes sont inscrits par ordre alphabétique selon l'emplacement.

Établissements dispensant aux assurés des soins à l'extérieur de l'hôpital. Un répertoire des établissements qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la Loi sur l'assurance-hospitalisation et les services diagnostiques.

Hôpital. Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

Emplacement. Adresse postale — Le nom de la rue est indiqué lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine, l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement du Canada de 1971. L'abréviation M.A. est utilisée pour "zone métropolitaine".

Nom. Nom officiel de l'établissement — L'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales dont dispose l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU — Quartier de psychiatrie
TBU — Quartier pour les soins aux tuberculeux
NS — École reconnue d'enseignement infirmier
EDU — Quartier pour le traitement des enfants affectivement perturbés.

Catégorie

Public (s'applique aux hôpitaux privés sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux). Hôpital reconnu par la province comme "public". Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Proprietary. Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the province as a "proprietary hospital".

Federal. Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

Type of Service

Classification is according to the predominant type of treatment and care provided by the institution.

A hospital classified as "General" provides **primarily** for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries and is not restricted to a specific age-group or sex.

Allied special hospitals include "Pediatric", "Rehabilitation" (including convalescent), "Extended care" (including chronic) and "Miscellaneous" (e.g., cancer, cardiology, neurology, outpost hospitals and nursing stations).

In the province of Quebec, some institutions are designated as *Centres d'accueil* (reception centres).

There are four classes of *Centres d'accueil*:

- (a) day-care centres that shall admit persons and provide them during part of the day with care and activities designed to promote their physical, intellectual and social development;
- (b) transition centres that shall admit persons deprived of their usual family surroundings who are obliged to seek temporary protective help;
- (c) rehabilitation centres that shall admit persons suffering from a major physical, intellectual, psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time; and
- (d) home care centres that shall admit persons who, because of a lessening in their physical or mental capacity, are obliged to sojourn in protective residence.

This list shows those *Centres d'accueil* which are part of another institution.

The following abbreviations have been used for designating the "type of service":

Privé à but lucratif. S'applique aux hôpitaux reconnus par la province comme "privés à but lucratif"; il s'agit d'un hôpital qu'un particulier ou un organisme privé possède et exploite en vue de réaliser des bénéfices.

Hôpital fédéral. Hôpital appartenant à un ministère ou à un organisme du gouvernement du Canada et ne visant pas à réaliser des bénéfices.

Genre de service

Les hôpitaux sont classés suivant le genre principal de traitement et de soins dispensés par l'établissement.

Un hôpital "général" offre **principalement** des soins de courte durée (diagnostic et traitement) pour une grande variété d'affections et de blessures ou traumatismes, sans distinction d'âge et de sexe.

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatriques", "de réadaptation" (comprend la convalescence), "de soins prolongés" (comprend les malades chroniques) et divers (par ex., les hôpitaux anticancéreux, de cardiologie, neurologiques, les hôpitaux éloignés et les postes infirmiers).

Dans la province de Québec certains établissements sont reconnus comme centres d'accueil.

Il y a quatre classes de centres d'accueil:

- a) les centres de garderie, qui reçoivent des personnes à qui ils offrent pendant une partie de la journée, des soins et un programme d'activités visant à promouvoir leur développement physique, intellectuel et social;
- b) les centres de transition, qui reçoivent des personnes qui, privées de leur milieu familial habituel, doivent recourir provisoirement à une ressource, de protection;
- c) les centres de réadaptation, qui reçoivent des personnes qui, à cause d'inadaptation majeure sur le plan physique, intellectuel, psychologique ou social, doivent bénéficier de services intensifs de réadaptation ou d'orientation pour une période définie; et
- d) les centres d'hébergement, qui reçoivent des personnes qui, en raison d'une diminution de leur autonomie physique ou psychique, doivent séjourner en résidence protégée.

Les centres d'accueil qui font partie d'un autre établissement sont énumérés dans cette liste.

Residents. A resident is a person who has been formally admitted but not discharged.

Maximum number of beds. The number of beds that could be set up in the existing space and regularly maintained for residents.

Introduction

This publication of a consolidated listing of hospitals and special care facilities provides a total picture of residential care facilities in Canada. Hospitals and related facilities are listed alphabetically according to location in Part I; Special Care Facilities are listed in the same format in Part II. The list includes hospitals and special care facilities in operation as of April 1, 1980.

This publication was prepared by the Institutional Statistics Section of the Health Division of Statistics Canada after the revision and updating of the previous year's inventory. Statistics Canada is grateful for the co-operation received from the provincial authorities for their assistance in the annual scrutiny of these lists.

Data appearing in this publication comprise only part of the information available on hospitals and special care facilities. A series of one quarterly, two annual and a number of occasional, non-catalogue reports are published by the Section. Unpublished data are available in either summary or indicator form by province, type and size of facility. Release of unpublished data is subject to the confidentiality provisions of the Statistics Act.

La liste englobe les hôpitaux et les établissements de soins spéciaux en activité au 1^{er} avril 1980.

La Section de la statistique des établissements de la Division de la santé de Statistique Canada a établi la présente publication après avoir révisé et mis à jour la liste de l'année précédente. Statistique Canada tient à exprimer sa gratitude aux autorités provinciales pour la collaboration dont elles ont fait preuve en participant à l'examen annuel de ces listes.

Les données figurant dans la présente publication ne portent que sur une partie des renseignements disponibles sur les hôpitaux et les établissements de soins spéciaux. EXPLANATORY NOTES AND GLOSSARY

This publication was prepared by the Institutional Statistics Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this list. The list includes hospitals in operation as of April 1, 1980.

Hospitals and facilities for the provision of out of hospital insured services are listed alphabetically according to location.

A hospital. Is defined as a health care institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions.

A facility for the provision of out of hospital insured services. Is a facility where patients are provided with diagnostic and therapeutic services and which is licensed or approved by a provincial government. Such a facility does not normally provide inpatient accommodation. This category also includes the Red Cross Blood depots.

Name. Official name of institution — Definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference.

Category

Public (including voluntary, provincial and municipal). Applies to a hospital recognized by the province as a “public hospital”. Such a hospital generally is not operated for profit.

Proprietary. Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the provinces as a “proprietary hospital”.

Federal. Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

Type of Service

Classification is according to the predominant type of treatment and care provided by the institution.

NOTES EXPLICATIVES ET GLOSSAIRE

La présente publication a été rédigée par la Section de la Statistique des établissements de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux en activité au 1^{er} avril 1980.

Les hôpitaux et les établissements dispensant aux assurés des soins à l'extérieur de l'hôpital sont inscrits par ordre alphabétique selon l'emplacement.

Hôpital. Se définit comme un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

Établissement dispensant aux assurés des soins à l'extérieur de l'hôpital. Établissement qui dispense aux malades des services diagnostiques et thérapeutiques et qui est enregistré ou reconnu par le gouvernement provincial. Ce genre d'établissement n'assure pas normalement de services d'hospitalisation. Cette catégorie englobe également les banques de sang de la Croix-rouge.

Nom. Nom officiel de l'établissement — L'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches.

Catégorie

Public (s'applique aux hôpitaux privés sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux). Hôpital reconnu par la province comme “public”. Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Privé à but lucratif. S'applique aux hôpitaux reconnus par la province comme “privés à but lucratif”; il s'agit d'un hôpital qu'un particulier ou un organisme privé possède et exploite en vue de réaliser des bénéfices.

Hôpital fédéral. Hôpital appartenant à un ministère ou à un organisme du gouvernement du Canada et ne visant pas à réaliser des bénéfices.

Genre de service

Les hôpitaux sont classés suivant le genre de traitement et de soins dispensés par l'établissement.

A hospital classified as "General" provides **primarily** for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries and is not restricted to a specific age-group or sex.

Allied special hospitals include "Pediatric", "Rehabilitation" (including convalescent), "Extended care" (including chronic) and "Miscellaneous" (e.g., cancer, cardiology, neurology, outpost hospitals and nursing stations).

Un hôpital "général" offre **principalement** des soins de courte durée (diagnostic et traitement) pour une grande variété d'affections et de blessures ou traumatismes, sans distinction d'âge et de sexe.

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatriques", "de réadaptation" (comprend la convalescence), "de soins prolongés" (comprend les maladies chroniques) et divers (par ex., les hôpitaux anticancéreux, de cardiologie, neurologiques, les hôpitaux éloignés et les postes infirmiers).

List of Special Care
Facilities

Partie II

Répertoire des établissements
de soins spéciaux

EXPLANATORY NOTES AND GLOSSARY

The Institutional Statistics Section of the Health Division of Statistics Canada is grateful for the co-operation received from the provincial health and social services authorities for their assistance in the revision of this list. The list includes special care facilities in operation as of April 1, 1980.

Special care facilities are listed alphabetically according to location.

In this document only RESIDENTIAL Special Care Facilities are included which maintain four or more beds for residents other than members of staff and which provide care to at least one resident. These facilities are, in general, maintained for residents who are chronically ill or disabled in contrast to, for example, a hospital where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services.

Principal Characteristics

Residents are classified into 10 categories. Each category is the principal characteristic of the predominant group which comprises the largest number of residents.

Aged	Aged (one who receives a level of care and whose reason for being a resident is due principally to the aging process)
Phs. Hand.	Physically handicapped and/or disabled including blind and deaf
Retarded	Mentally retarded
Mnt. Hand.	Mentally handicapped
Dst. Chld.	Emotionally disturbed children
Alc. Drug	Alcohol/Drug Addicts
Delinq.	Delinquents
Unwd. Mth.	Unwed mothers
Transnts	Transients
Oth.	Others

Ownership

The owner of the facility is the person, group of persons, agency or body responsible for the financial status of the operation.

Prop — Proprietary. Private individual, partnership or corporation regardless of financial aid received by owner or residents and operated for a profit.

NOTES EXPLICATIVES ET GLOSSAIRE

Le présent document, ne tient compte que des Établissements RÉSIDENTIELS de soins spéciaux comprenant au moins quatre lits pour les résidents autres que le membres du personnel et où des soins sont prodigués à au moins un résident. Ces établissements sont habituellement destinés à des malades ou à des invalides chroniques qui y séjournent de façon plus ou moins permanente, par opposition, par exemple, à l'hôpital où les patients sont admis en fonction de leurs besoins médicaux et reçoivent des soins médicaux continus ainsi que des services diagnostiques et thérapeutiques.

Principales caractéristiques

Les résidents sont classés en 10 catégories. Chaque catégorie constitue la caractéristique principale du groupe prédominant, qui englobe le plus grand nombre de résidents.

Introduction

This publication of a consolidated listing of hospitals and special care facilities provides a total picture of residential care facilities in Canada. Hospitals and related facilities are listed alphabetically according to municipality in Part I; Special Care Facilities are listed in the same format in Part II. The list includes hospitals and special care facilities in operation as of April 1, 1981.

This publication was prepared by the Institutional Statistics Section of the Health Division of Statistics Canada after the revision and updating of the previous year's inventory. Statistics Canada is grateful for the co-operation received from the provincial authorities for their assistance in the annual scrutiny of these lists.

Data appearing in this publication comprise only part of the information available on hospitals and special care facilities. A series of one quarterly, two annual and a number of occasional, non-catalogue reports are published by the Section. Unpublished data are available in either summary or indicator form by province, type and size of facility. Release of unpublished data is subject to the confidentiality provisions of the Statistics Act.

La liste englobe les hôpitaux et les établissements de soins spéciaux en activité au 1^{er} avril 1981.

La Section de la statistique des établissements de la Division de la santé de Statistique Canada a établi la présente publication après avoir révisé et mis à jour la liste de l'année précédente. Statistique Canada tient à exprimer sa gratitude aux autorités provinciales pour la collaboration dont elles ont fait preuve en participant à l'examen annuel de ces listes.

Les données figurant dans la présente publication ne portent que sur une partie des renseignements disponibles sur les hôpitaux et les établissements de soins spéciaux. La Section publie un bulletin trimestriel, deux bulletins annuels et un certain nombre de bulletins hors série ne figurant pas au catalogue. Les données non publiées sont disponibles sous forme de résumé ou d'indicateurs selon la province, le genre et la taille de l'établissement. La diffusion des données non publiées est assujettie aux dispositions relatives à la confidentialité de la Loi sur la statistique.

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared by the Institutional Statistics Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this list. The list includes hospitals in operation as of April 1, 1981.

Hospitals and facilities for the provision of out of hospital insured services are listed alphabetically according to municipality.

A hospital. Is defined as a health care institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions.

A facility for the provision of out of hospital insured services. Is a facility where patients are provided with diagnostic and therapeutic services and which is licensed or approved by a provincial government. Such a facility does not normally provide inpatient accommodation. This category also includes the Red Cross Blood depots.

Name. Official name of institution — Definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference.

Category

Public (including voluntary, provincial and municipal). Applies to a hospital recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

Proprietary. Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the provinces as a "proprietary hospital".

Federal. Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

Type of Service

NOTES EXPLICATIVES ET GLOSSAIRE

La présente publication a été rédigée par la Section de la Statistique des établissements de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux en activité au 1^{er} avril 1981.

Les hôpitaux et les établissements dispensant aux assurés des soins à l'extérieur de l'hôpital sont inscrits par ordre alphabétique selon la municipalité.

Hôpital. Se définit comme un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

Établissement dispensant aux assurés des soins à l'extérieur de l'hôpital. Établissement qui dispense aux malades des services diagnostiques et thérapeutiques et qui est enregistré ou reconnu par le gouvernement provincial. Ce genre d'établissement n'assure pas normalement de services d'hospitalisation. Cette catégorie englobe également les banques de sang de la Croix-rouge.

Nom. Nom officiel de l'établissement — L'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches.

Part II

List of Special Care Facilities

Partie II

Répertoire des établissements de soins spéciaux

EXPLANATORY NOTES AND GLOSSARY

The Institutional Statistics Section of the Health Division of Statistics Canada is grateful for the co-operation received from the provincial health and social services authorities for their assistance in the revision of this list. The list includes special care facilities in operation as of April 1, 1981.

Special care facilities are listed alphabetically according to municipality.

In this document only RESIDENTIAL Special Care Facilities are included which maintain four or more beds for residents other than members of staff and which provide care to at least one resident. These facilities are, in general, maintained for people, chronically ill or disabled who reside there more or less permanently, in contrast to, for example, a hospital where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services.

Principal Characteristics

Residents are classified into 10 categories. Each category is the principal characteristic of the predominant group which comprises the largest number of residents in the facility.

Aged	Aged (residents who require care principally because of the aging process)
Phs Hand	Physically handicapped and/or disabled including blind and deaf
Retarded	Mentally retarded
Mnt Hand	Mentally handicapped
Dst Chld	Emotionally disturbed children
Alc/Drug	Alcohol/Drug Addicts
Delinq	Delinquents
Unwd Mth	Unwed mothers
Transnts	Transients
Other	Others

Ownership

The owner of the facility is the person, group of persons, agency or body responsible for the financial status of the operation.

Prop — Proprietary. Private individual, partnership or corporation regardless of financial aid received by owner or residents and operated for a profit.

NOTES EXPLICATIVES ET GLOSSAIRE

La Section de la Statistique des établissements de la Division de la santé de Statistique Canada remercie les autorités des services sociaux et de santé des provinces de l'avoir aidé à réviser la liste. La liste comprend les établissements de soins spéciaux en activité au 1^{er} avril 1981.

Les établissements de soins spéciaux figurent par ordre alphabétique selon la municipalité.

Le présent document, ne tient compte que des Établissements RÉSIDENTIELS de soins spéciaux comprenant au moins quatre lits pour les résidents autres que les membres du personnel et où des soins sont prodigués à au moins un résident. Ces établissements sont habituellement destinés à des malades ou à des invalides chroniques qui y séjournent de façon plus ou moins permanente, par opposition, par exemple, à l'hôpital où les patients sont admis en fonction de leurs besoins médicaux et reçoivent des soins médicaux continus ainsi que des services diagnostiques et thérapeutiques.

Principales caractéristiques

Les résidents sont classés en 10 catégories. Chaque catégorie constitue la caractéristique principale du groupe prédominant, qui englobe le plus grand nombre de résidents dans l'établissement.

Aged	Personnes âgées (résidents qui ont besoin des soins en raison surtout du vieillissement)
Phs Hand	Handicapés physiques et/ou invalides, y compris les personnes aveugles et sourdes

Dst Chld	Enfants souffrant de troubles émotifs
Alc/Drug	Alcooliques/toxicomanes
Delinq	Délinquants
Unwd Mth	Mères célibataires
Transnts	Personnes itinérantes
Other	Autres.

Propriété

Le propriétaire de l'établissement est la personne, le groupe de personnes, l'organisme ou la personne morale responsable de l'établissement sur le plan financier.

Prop — Propriété privée. Particulier, association ou société constituée en corporation, quelle que soit l'aide financière accordée au propriétaire ou aux résidents, qui exploite l'établissement en vue de réaliser des bénéfices.
